

# CHOOSE YOUR OPTION FOR A BRIGHTER SMILE

## On-the-Go

**Opalescence® TrèswHITE™ Supreme** comes from your dentist in prefilled, disposable trays, allowing you to whiten on the go. To use, simply place the tray in your mouth and wear from 15 minutes to one hour per day, depending on your dentist's recommendations.

Available in Mint, Melon, or Peach flavors, Opalescence TrèswHITE Supreme is an affordable, more effective alternative to over-the-counter whiteners. **Opalescence® TrèswHITE™ Ortho** is also available for patients with braces who want to whiten their smiles.

## Customized

**Opalescence® PF whitening gel** offers professional whitening power in the comfort of your own home. Your dentist will take impressions of your teeth and create whitening trays tailored to your smile. Whitening gel comes in a variety of concentration, for different wear times and is available in Mint, Melon, and Regular flavors. Try our classic whitening gel syringes or our new **Opalescence® Oh! bulbs** with precisely the right amount of gel for one whitening tray.

## In-Office

**Opalescence® Boost** a 40% hydrogen peroxide power whitening gel, offers brighter, whiter teeth after just 40 minutes in the dental chair. Opalescence Boost is chemically activated, so it starts working as soon as it is placed on your teeth and doesn't require a hot, uncomfortable light to work.
